CHECKPOINT 1
WEB DEVELOPMENT
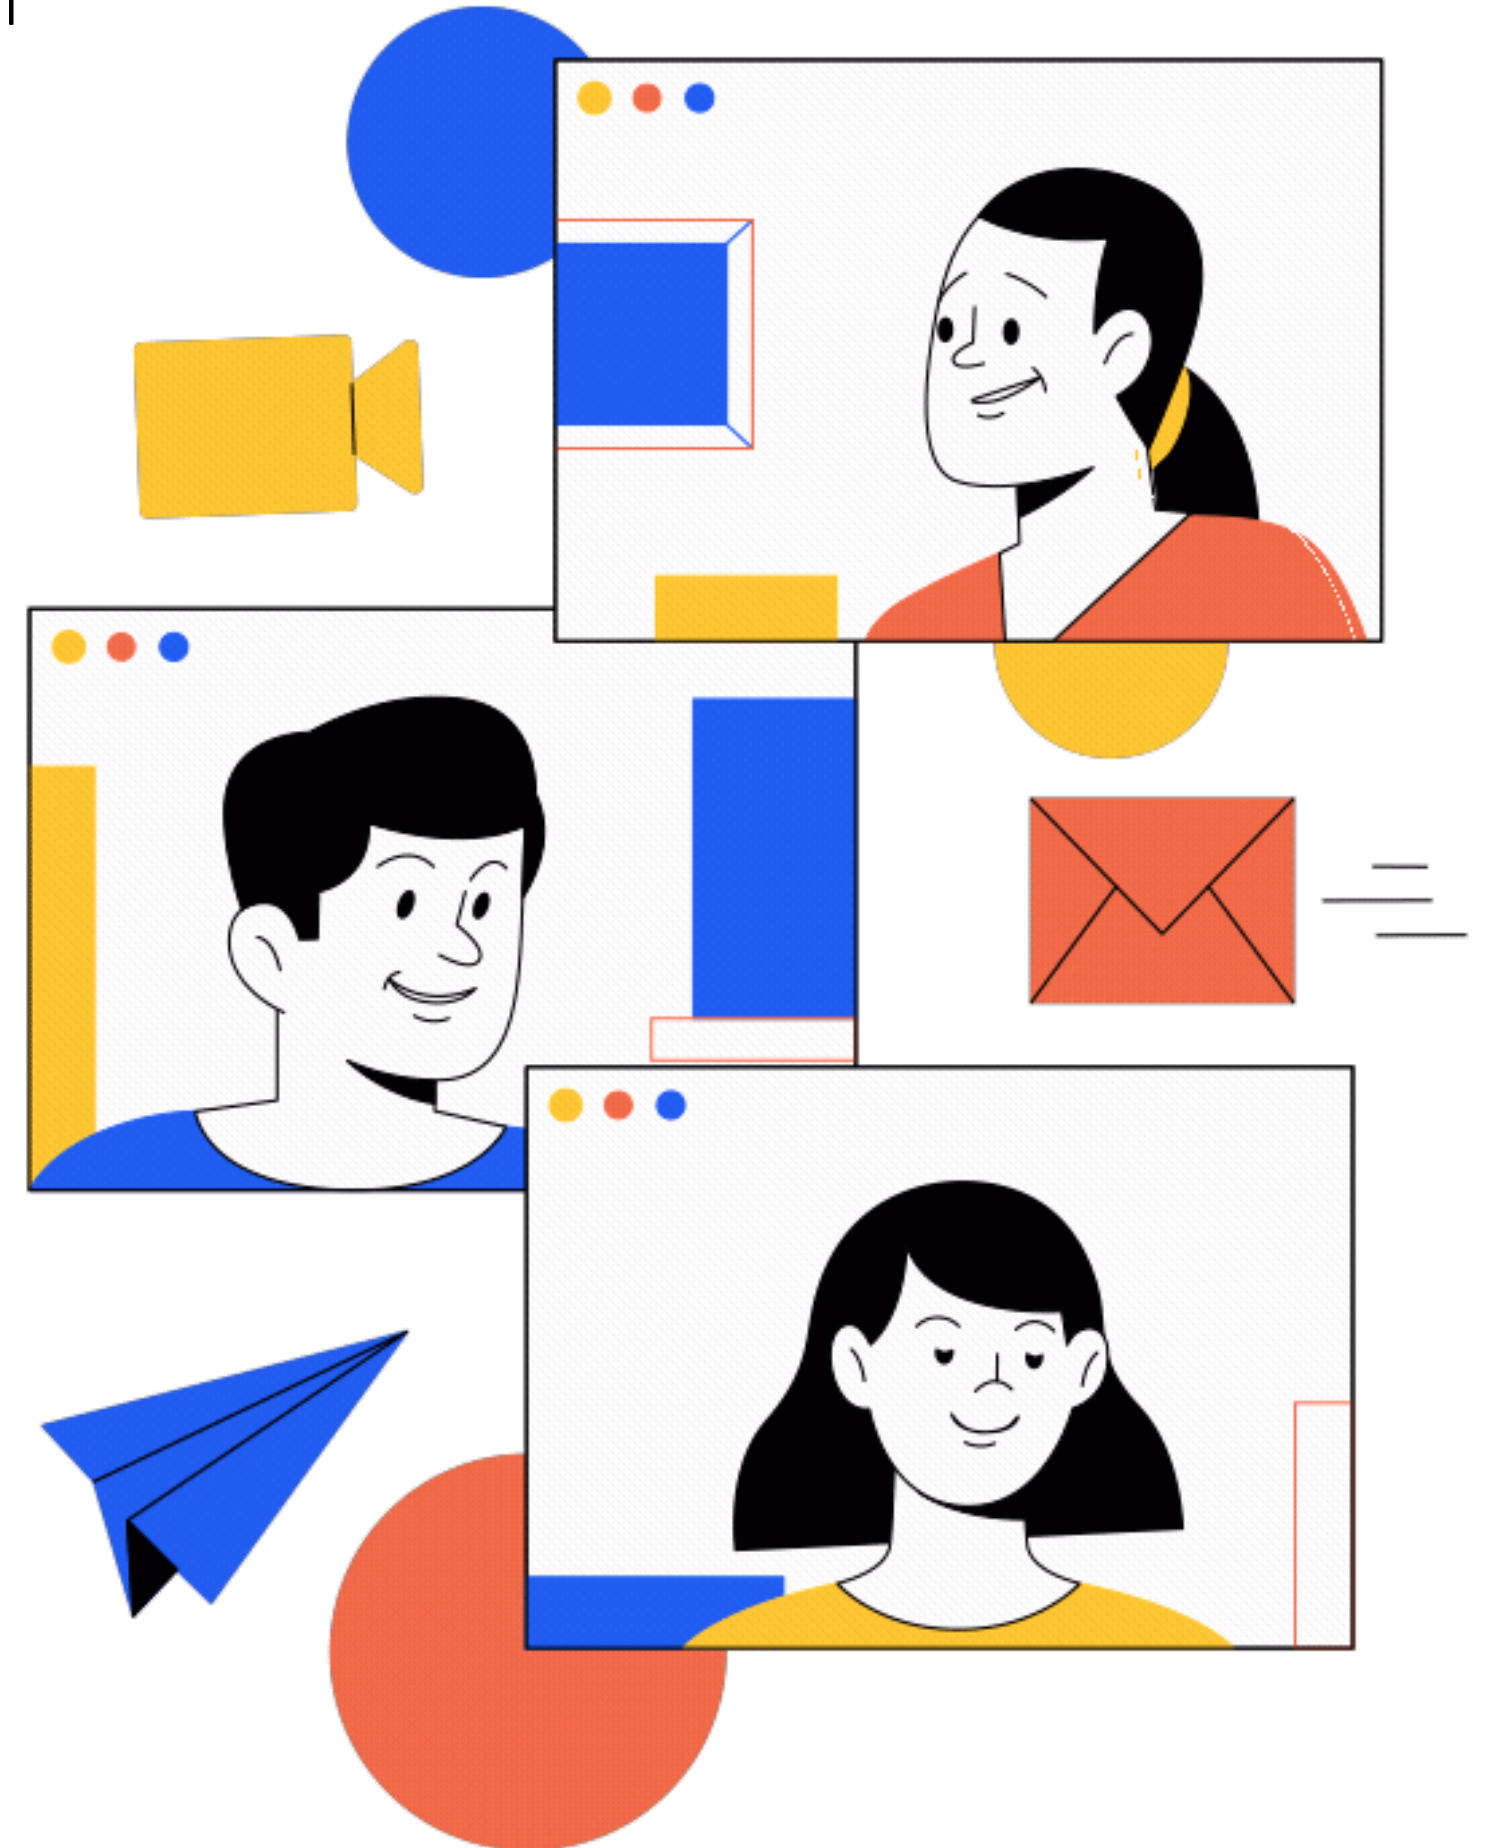

TABLE OF CONTENTS

1 How does the web work?

2 What do you need to be a web developer?

**3** Why did you choose to learn web development?

HOW DOES THE WEB WORK

- The web is connecting and building information through the internet.
- For this to happen, a client writes the domain name of a specific website on the browser. Then the browser sends it to the DNS to convert it to IP Address and then once found in the server, it is sent back to the client to access the desired website.

WHAT DO YOU NEED TO BE A WEB DEVELOPER?

A web developer need to master the folloeing languages:

WHY DID YOU CHOOSE TO LEARN WEB DEVELOPMENT?

I want to build my own e-portfolio using code to present to present my work and hopefuuly work in the web development field.
